

Vasilios Totskas

Computer and technology was always a big part of my life , i remember my self spending a lot of time in front of my pc and i was always curious about how it works and how to use it to build my own applications or websites.

Now i am into web development spending years of a lot of work in programming using technologies like **Django(Python)**, **Codeigniter(Php)**, **Vue2-3 (TypeScript, JavaScript)**, **NestJs**, **SASS(css)**, **MariaDB** and **Postgres**.

I also have basic knowledge of DevOps using tools like **Docker** that i also used to dockerize my own custom **CMS** like project built with **Django Rest API** for Backend , **Vue 3 Typescript** for SPA Frontend , a **Mediastream service built in Nest Js** and more...
